## ***Approved Models – (Rev. F - Effective Date 12/23/07)***

All e-powered models must fall into the **APPROVED** classifications listed below in order to fly at any ICR flying session. The most current list of approved e-helis and e-planes will be maintained at the club's website - [www.clubicr.com](http://www.clubicr.com). All pilots are encouraged to review the list on the website prior to each ICR flying session.

In the event that a model does **NOT** clearly meet the requirements listed below, the ICR Safety Officer will make the final determination for allowing the model to fly at the ICR field. His decision will not be based on any pilots skill or experience level, **NO EXCEPTIONS**. Your understanding on his ruling, approved or rejected, is both expected and appreciated.

The following models are **APPROVED** for use during an ICR Flying session.

### **Micro Helicopter Class**

1. Rotor span of less than 24 inches measured tip to tip
2. Maximum total weight of 15.9 ounces (including battery)
3. Maximum power output of 200 watts

10. Align T-rex 500 – All Versions
11. JR Vibe 500 – All Versions

Per the development and creation of indoor e-powered flying models the ICR Officers have the right to amend these lists as necessary to ensure safe flying sessions without notice. The most current list will be maintained on the club website - [www.clubicr.com](http://www.clubicr.com). Pilots attending ICR scheduled flying sessions are encouraged to check the web site to obtain the most current list of **APPROVED** models prior to flying sessions.

**Remember, safety is everyone's responsibility. If you have any questions or do not understand any of these classifications, don't hesitate to ask any club official or experienced member of the club. Please be courteous, we are all here to make the sport safe and enjoyable. ICR will not tolerate recklessness or rowdiness and unsafe flying at any time during a flying session. ICR has the right to eject any pilot from a scheduled ICR session without a refund for failure to observe the ICR Approved Models listed here, NO EXCEPTIONS.**
